

#### ADVICE

- **Decal will require 72 hours for adhesive to fully set.** Foot traffic can go over decal without waiting 72 hours.

#### SURFACE PREPARATION

- A clean surface is critical to decal application and life of decal. Clean surface with alcohol or Windex to remove all dirt and grease.
- If cleaning is required before set time, clean from center of decal to outside edges so edges do not curl up.

#### INSTALL

- Measure and mark area where decal is to be placed. Once decal is applied it cannot be removed without stretching the decal.
- Place decal printed side down and remove backing sheet.
- Turn decal over and hold two opposite ends of decal and allow center of decal to touch the floor first. Then gently drop opposite ends of the decal onto the floor.
- Squeegee entire graphic using overlapping strokes.
